Index of Authors

Numerals followed by the letter A refer to pages in Abstracts of Communications read at Meetings for Original Communications of The Nutrition Society.

AHERNE, F. X. *see* KIRKWOOD, R. N. 177–192

AITCHISON, E. M., MCDONALD, C. L., CASSON, P. & ROWE, J. B. Feed antibiotics and buffers to control rumen lactic acid: 2. pre-dosing 41A

AITCHISON, E. M., RALPH, I. G. & ROWE, J. B. Evaluation of avoparcin, flavomycin and lasalocid for wool production 42A

AITCHISON, E. M. *see* ROWE, J. B. 40A

ANDERSON, A. S., LEAN, M. E. J. & COUBROUGH, H. Towards NACNE: practical nutrition education in a high-risk area 144A

ANDERSON, J. H. *see* QUARTERMAN, J. 52A

ANDERSON, JULIE E. M. *see* MACLEOD, M. G. 148A

ANDERSON, JULIE *see* GERAERT, P. A. 34A

ANIL, M. H. & FORBES, J. M. Neural control and neurosensory functions of the liver 125–133

ANIL, M. H., MBANYA, J. N., SYMONDS, H. W. & FORBES, J. M. Dose-related effects on hay intake of acetate infused into the rumen of lactating cows 29A

ARMSTRONG, D. G. *see* PARKER, D. S. 415–421

ASHWELL, MARGARET *see* TRAYHURN, P. 135–142

ATKINSON, C. *see* SHEPHERD, R. 23A

AULD, W. H. R. *see* BARCLAY, M. N. I. 55A

BADALOO, V., EMOND, A., VENUGOPAL, S., SERJEANT, G. & JACKSON, A. A. The effect of splenectomy on whole body protein turnover in homozygous sickle cell disease 137A

BADALOO, V. *see* KENNEDY, N. 85A

BANKS, W. *see* CLAPPERTON, J. L. 43A

BARCLAY, M. N. I., MACPHERSON, A., TAYLOR, C. & AULD, W. H. R. Selenium concentration and glutathione peroxidase activity in human blood from patients with coronary heart disease 55A

BARKER, D. J. P. *see* CADE, JANET 99A

BARKER, D. J. P. *see* CADE, JANET 126A

BARKER HAIDEE, D. *see* JAMES, S. 108A

BARTH, C. A., SCHOLTISSEK, JOHANNE, FRIGG, M. & HAGEMEISTER, H. Biotin supply by large bowel bacteria: evidence from intracaecal avidin 111A

BARTH, C. A. *see* HAGEMEISTER, H. 110A

BASU, SUBIR *see* GHOSHAL, DEBASIS 107A

BATES, P. C. & HOLDER, A. T. The anabolic effects of growth hormone and thyroxine on tissue growth in Snell dwarf mice 35A

BATES, P. C. *see* TIRAPEGUI, J. 94A

BATT, R. M. *see* HAYWOOD, S. 72A

BEEVER, D. E., GILL, E. M., EVANS, R. T., GALE, D. L. & WILTON, J. C. The effect of fishmeal supplementation of grass silage on nitrogen metabolism in growing cattle 38A

BEEVER, D. E. *see* DAWSON, J. M. 37A

BEEVERS, D. GARETH *see* MAHESWARAN, RAVI 134A

BEEVERS, M. *see* DODSON, P. M. 22A

BENDER, A. E. *see* SANDARADURA, SANOJA 97A

BENDER, DAVID A., CLIFFORD, ELIZABETH, MCCREANOR, GWYN M. & SMITH, ANTHONY D. The metabolism of a high intake of nicotinamide in choline-deficient rats 74A

BENDER, DAVID A. *see* LAVIS, GRAHAME J. 59A

BERROW, MICHAEL L. Cobalt, copper and molybdenum in Scottish soils 64A

BETTERIDGE, JOHN Nutrition and platelet function in atherogenesis 345–359

BLAKE, L. A. *see* PELL, J. M. 48A

BOLTON-SMITH, CAROLINE & GIBNEY, M. J. The effect of a dietary supplement of marine oil in healthy volunteers on platelet lipids, platelet function and platelet plasma membrane fluidity 12A

BOLTON-SMITH, CAROLINE, GIBNEY, M. J., GALLAGHER, P. J. & HILLIER, K. The effect of dietary fish oil on immune-complex-induced atherosclerosis in rabbits 13A

BOURNE, F. J. *see* RATCLIFFE, B. 101A

BRADY, CAITRIONA & GIBNEY, MICHAEL J. Detection of secretory IgA antibodies to common food protein in stimulated human parotid saliva 86A

BREBNER, JOCELYN, SUTTLE, N. F. & THORNTON, I. Assessing the availability of ingested soil cobalt for the synthesis of vitamin B_{12} in the ovine rumen 66A

BREMNER, I., MORRISON, J. N. & WOOD, ANNE M. Metallothionein levels in blood cells and urine of zinc-deficient and endotoxin-treated rats 57A

BREMNER, I. *see* MORRISON, J. N. 56A

BROADBENT, P. J. *see* KHAN, M. A. S. 30A

BROADHURST, A. J. *see* STOCKLEY, L. 7A

BROOKS, S. *see* WILLIAMS, C. 138A

BROWN, G., HUNT, V., WAN, J. & GRIMBLE, R. F. The differing responses of zinc and protein metabolism in *Escherichia coli* endotoxin in rats fed on diets containing maize, coconut and fish oils 36A

BRUCE, C. I. *see* DAWSON, J. M. 37A

BRUNT, P. W. *see* LOWELL, JANET P. 120A

BUNKER, VALDA W. *see* LAWSON, MARGARET S. 53A

BURSZTYN, PETER G. & GILLBE, ZOE The effects of alcohol on blood pressure in rabbits 141A

BUTLAND, BARBARA *see* FEHILY, ANN M. 8A

BUTTERY, P. J. *see* DAWSON, J. M. 37A

BUTTERY, P. J. *see* HARPER, JANE M. M. 46A

BUTTERY, P. J. *see* YHOKHA, A. 39A

BUTTLE, H. L. *see* PELL, J. M. 48A

CADE, JANET, BARKER, D. J. P., MARGETTS, BARRIE & MORRIS, JULIE The three-town diet study: food intake 126A

CADE, JANET, BARKER, D. J. P., MORRIS, JULIE & MARGETTS, BARRIE Nutritent intakes in three English towns 99A

Index of Subjects

Numerals followed by the letter A refer to pages in Abstracts of Communications read at Meetings for Original Communications of The Nutrition Society.

Acetate infusion
Dose-related effects on hay intake of acetate infused into the rumen of lactating cows **46**, 29A, 1987

Acetyl choline
Starvation enhances the secretory responses of stripped rat colon and ileum to acetyl choline in vitro **46**, 109A, 1987

Acid secretion
Basal and pentagastin-induced gastric acid and milk-clotting enzyme secretion in pigs from birth to 4 weeks of age **46**, 25A, 1987

Actaplanin
The effect of Actaplanin on the composition of cow's milk **46**, 43A, 1987

Activity pattern
Activity pattern of rural women from Rajasthan, India **46**, 145A, 1987

Adrenergic agonists
Thermogenic sensitivity to adrenergic agonists of brown adipocytes from 'cafeteria'-fed rats **46**, 92A, 1987

Afro-Caribbean mothers
Eating patterns of Afro-Caribbean mothers in Birmingham **46**, 100A, 1987

Alcohol
Moderate alcohol consumption affects lipid metabolism and blood haemostasis **46**, 132A, 1987
Recent alcohol intake and blood pressure **46**, 134A, 1987
The effects of alcohol on blood pressure in rabbits **46**, 141A, 1987
The relation of alcohol intake and diet to the changing pattern of acute pancreatitis **46**, 133A, 1987

Amino acid imbalance
Zinc deficiency, amino acid imbalance and brain catecholamine concentrations in the chick **46**, 58A, 1987

Amino acids
Absorption kinetics of amino acids from amino acid mixtures of the same composition perfused into the small intestine in the free form or as enzymic milk protein hydrolysates in conscious pigs **46**, 104A, 1987
Qualitative and quantitative intestinal absorption and hepatic metabolism in conscious pigs. 1. Glucose and amino nitrogen **46**, 102A, 1987
Qualitative and quantitative intestinal absorption and hepatic metabolism in conscious pigs. 2. Lactate, pyruvate, ammonia-nitrogen and urea **46**, 103A, 1987
The metabolism of L-[4,5-^{3}H]leucine labelled fishmeal protein by rumen micro-organisms in vitro **46**, 39A, 1987

Anabolic steroids
Effect of an anabolic steroid (Durabolin) on body composition of rats treated with insulin **46**, 96A, 1987
Effect of clenbuterol on the growth and carcass composition of hypophysectomized rats in the presence or absence of growth hormone **46**, 108A, 1987

Animal health
Biotechnology and animal health **46**, 387–391, 1987

Antarctic expedition
Did Scott simply starve? Lessons from 'The footsteps of the Scott Antarctic expedition' **46**, 129A, 1987
Energy balance in dog sledgers and skidoo drivers in Antarctica: a comparison **46**, 147A, 1987
Energy intake, expenditure and balance of the transglobe expedition Antarctic crossing party **46**, 146A, 1987

Antibiotics
Antibiotic feed additives and livestock production **46**, 415–421, 1987
Evaluation of avoparcin, flavomycin and lasalocid for wool production **46**, 42A, 1987
Feed antibiotics and buffers to control rumen lactic acid: 1. dose rates **46**, 40A, 1987
Feed antibiotics and buffers to control rumen lactic acid: 2. pre-dosing rates **46**, 41A, 1987

Antioxidant status
Copper deficiency and antioxidant status in male and female rats **46**, 60A, 1987

Arterial disease
Smoking habit, carboxyhaemoglobin level and obesity in patients with peripheral arterial disease **46**, 80A, 1987

Atheroma
The nature of atheroma **46**, 331–336, 1987

Atherosclerosis
Nutrition and platelet function in atherogenesis **46**, 345–359, 1987
The effect of dietary fish oil on immune-complex-induced atherosclerosis in rabbits **46**, 13A, 1987
The genetics of atherosclerosis **46**, 337–343, 1987

Na^+,K^+-ATPase
Na^+,K^+-ATPase-dependent zinc transfer by everted gut sacs from rats given different amounts and types of dietary fibre **46**, 54A, 1987

Bile
The effect of molybdate compounds on the biliary excretion of copper by sheep **46**, 69A, 1987

Biotechnology
Antibiotic feed additives and livestock production **46**, 415–421, 1987

Biotechnology and animal health
46, 387–391, 1987
Biotechnology and improvement of feeds
46, 379–385, 1987
Biotechnology and modifications of the rumen microbial ecosystem **46**, 407–413, 1987
Biotechnology and production-related hormones **46**, 393–405, 1987

Biotin
Biotin supply by large bowel bacteria: evidence from intracaecal avidin **46**, 111A, 1987

Birth weight
Fetal growth in low birth weight Nigerian babies **46**, 15A, 1987
Very low birth weight infants given total parenteral nutrition: longitudinal balance studies of nitrogen and energy **46**, 84A, 1987

Blood pressure
Recent alcohol intake and blood pressure **46**, 134A, 1987
The effects of alcohol on blood pressure in rabbits **46**, 141A, 1987

Body composition
Effect of an anabolic steroid (Durabolin) on body composition of rats treated with insulin **46**, 96A, 1987

Brain substrates
Brain substrates and the effects of nutrition **46**, 81–87, 1987

Bread
Response of rat caecal metabolism to varying proportions of white and wholemeal bread **46**, 11A, 1987

Brown adipose tissue
Control of white and brown adipose tissues by the autonomic nervous system **46**, 135–142, 1987
Sympathetic activity in brown adipose tissue during lactation in mice **46**, 27A, 1987

Buffers
Feed antibiotics and buffers to control rumen lactic acid: 1. dose rates **46**, 40A, 1987
Feed antibiotics and buffers to control rumen lactic acid: 2. pre-dosing rates **46**, 41A, 1987

Butyrate infusion
Effects of rumen butyrate infusion on blood ethylmalonic acid concentration in sheep **46**, 112A, 1987

Caecal metabolism
Response of rat caecal metabolism to varying proportions of white and wholemeal bread **46**, 11A, 1987

Caecum
Tissue incorporation and excretion of ^{14}C in pigs after injection of [1–^{14}C]– or [2–^{14}C] propionic acid into the caecum **46**, 113A, 1987

'Cafeteria' feeding
Thermogenic sensitivity to adrenergic agonists of brown adipocytes from 'cafeteria'-fed rats **46**, 92A, 1987

Calcium
Influence of acute food restriction on rabbit skeletal muscle sarcoplasmic reticulum Ca^{2+}/Mg^{2+} ATPase (*EC* 3.6.1.3) **46**, 139A, 1987
Placental transfer of calcium to the ovine fetus and its regulation **46**, 321–329, 1987

Calorimetry
Energy expenditure: evaluation of a factorial field technique against continuous calorimetry **46**, 81A, 1987

Carbohydrate
Increased dietary carbohydrate and endurance during single-leg cycling **46**, 143A, 1987
Influence of carbohydrate supplementation on running performance **46**, 119A, 1987
Serum glucose and insulin response to various levels of glucose, maltose and two maltodextrins in men and women **46**, 88A, 1987

Cardiovascular disease
Belfast MONICA project first population survey: cholesterol, zinc, copper and selenium **46**, 61A, 1987
Can nutrition favourably affect serum lipids? **46**, 361–366, 1987
Diet and ischaemic heart disease in the community: the Caerphilly study **46**, 8A, 1987
Diet, cholesterol and coronary heart disease: the Lipid Research Clinics Program **46**, 367–372, 1987
Moderate alcohol consumption affects lipid metabolism and blood haemostasis **46**, 132A, 1987
Non-pharmacological treatment of hypertension **46**, 373–377, 1987
Nutrition and platelet function in atherogenesis **46**, 345–359, 1987
Selenium concentration and glutathione peroxidase activity in human blood from patients with coronary heart disease **46**, 55A, 1987
Six year compliance and dietary advice in cardiac patients **46**, 9A, 1987
The genetics of atherosclerosis **46**, 337–343, 1987
The nature of atheroma **46**, 331–336, 1987

Carnitine
Fat metabolism during prolonged exercise: influence of carnitine supplementation **46**, 138A, 1987

Catecholamines
Zinc deficiency, amino acid imbalance and brain catecholamine concentrations in the chick **46**, 58A, 1987

Cell-mediated immunity
Effect of increasing levels of dietary eicosapentaenoic (20:5*n*−3) and docosahexaenoic (22:6*n*−3) acids on lymphocyte phospholipid composition and cell-mediated immunity in the mouse **46**, 87A, 1987

Central nervous system
Brain substrates and the effects of nutrition **46**, 81–87, 1987
Control of white and brown adipose tissues by the autonomic nervous system **46**, 135–142, 1987

Insulin interaction with the central nervous system: nature and possible significance **46**, 97–103, 1987
Neural activity in hypothalamic and genetic obesity **46**, 105–117, 1987
Neural control and neurosensory functions of the liver **46**, 125–133, 1987
Neural control of the endocrine pancreas **46**, 89–95, 1987
Peptides of the gut and brain: the cholecystokinins **46**, 119–124, 1987
Tryptophan availability and serotonin synthesis **46**, 143–156, 1987

Cholecystokinin
Peptides of the gut and brain: the cholecystokinins **46**, 119–124, 1987

Cholesterol
Belfast MONICA project first population survey: cholesterol, zinc, copper and selenium **46**, 61A, 1987
Cholesterolaemic and intestinal responses to oat bran fractions in chicks **46**, 150A, 1987
Effect of dietary saturated and polyunsaturated fats on faecal excretion of cholesterol and its catabolites in rabbits **46**, 10A, 1987
The effect of lead and phospholipids on serum cholesterol **46**, 115A, 1987

Choline deficiency
The metabolism of a high intake of nicotinamide in choline-deficient rats **46**, 74A, 1987

Clenbuterol
Effect of clenbuterol on the growth and carcass composition of hypophysectomized rats in the presence or absence of growth hormone **46**, 108A, 1987

Cobalt
Assessing the availability of ingested soil cobalt for the synthesis of vitamin B_{12} in the ovine rumen **46**, 66A, 1987
Microbicidal activity of neutrophils of cobalt-deficient and repleted calves **46**, 67A, 1987

Colon
Starvation enhances the secretory responses of stripped rat colon and ileum to acetyl choline in vitro **46**, 109A, 1987

Colonic bacteria
Biotin supply by large bowel bacteria: evidence from intracaecal avidin **46**, 111A, 1987

Congenital defects
Nutritionally induced congential defects **46**, 227–235, 1987 **46**, 152A, 1987

Copper
Copper retention in the human liver: a histochemical and immunocytochemical study **46**, 71A, 1987
Copper supplementation during pregnancy can reduce perinatal mortality and improve early growth in lambs **46**, 68A, 1987
Dietary intake of zinc and copper in long-stay geriatric patients **46**, 63A, 1987
Effect of endogenous status of zinc on copper absorption and its application to the treatment of Wilson's disease **46**, 70A, 1987
Estimation of leucocyte zinc and serum Zn and copper in geriatric long-stay patients **46**, 62A, 1987
Intracellular events in the liver and kidney of copper-loaded rats in relation to Cu-storage diseases in man and animals **46**, 72A, 1987
The effect of molybdate compounds on the biliary excretion of copper by sheep **46**, 69A, 1987

Copper deficiency
Copper deficiency and antioxidant status in male and female rats **46**, 60A, 1987
The effect of copper deficiency on oxygen free radical defence mechanisms in rats fed on saturated or polyunsaturated fat

Corticosterone
Effect of corticosterone and energy restriction on IGF-1 levels, cartilage matrix synthesis and bone growth in the rat **46**, 94A, 1987
The activity of cytochrome *c* oxidase (*EC* 1.9.3.1) in corticosterone-treated rats **46**, 95A, 1987

Crop intubation
Energy utilization and physical activity in intubated and self-fed male domestic fowl **46**, 148A, 1987

Cushing's disease
Abdominal adipose tissue distribution in diabetes, Cushing's syndrome and phaeochromocytoma: a computed tomography index for brown adipose tissue activity? **46**, 19A, 1987
Defective thermogenic response to mild-cold exposure in type II diabetes and Cushing's disease **46**, 18A, 1987

Cytochrome *c* oxidase
The activity of cytochrome *c* oxidase (*EC* 1.9.3.1) in corticosterone-treated rats **46**, 95A, 1987

Diabetes
Abdominal adipose tissue distribution in diabetes, Cushing's syndrome and phaeochromocytoma: a computed tomography index for brown adipose tissue activity? **46**, 19A, 1987
Defective thermogenic response to mild-cold exposure in type II diabetes and Cushing's disease **46**, 18A, 1987
Long-term effects of fructose consumption on adipose tissue cellularity and glycaemic status in non-insulin dependent diabetic rats **46**, 20A, 1987
Sodium and blood pressure in the hypertensive type II diabetic: randomized blind, controlled and crossover studies of moderate Na restriction and Na supplementation **46**, 22A, 1987

Diarrhoea
Relation between osmolality of the diet and diarrhoea in enteral feeding **46**, 76A, 1987

Dietary fats
Effect of dietary saturated and polyunsaturated fats on faecal excretion of cholesterol and its catabolites in rabbits **46**, 10A, 1987

Dietary fibre
Cholesterolaemic and intestinal responses to oat bran fractions in chicks **46**, 150A, 1987
Effect of high-fibre diets on faecal DNA and mucosal cell proliferation in the rat **46**, 97A, 1987
Fibre, dietitians and irritable bowel syndrome **46**, 120A, 1987
Na^+,K^+-ATPase-dependent zinc transfer by everted gut sacs from rats given different amounts and types of dietary fibre **46**, 54A, 1987
Nitrogen losses from the human small bowel: obligatory losses and the effect of diet **46**, 73A, 1987
Response of rat caecal metabolism to varying proportions of white and wholemeal bread **46**, 11A, 1987
The effect of dietary fibre on apparent absorption of zinc, copper, iron and manganese in the elderly **46**, 53A, 1987
The effects of fasting and fibre supplements on some metal-binding properties of rat intestinal mucus **46**, 52A, 1987
Which foods contain dietary fibre? The beliefs of 7351 respondents in the Health and Lifestyle Survey 1984–85 **46**, 135A, 1987

Dietary supplement
The Keneba prenatal supplementation programme: updated analysis after 4 years of intervention **46**, 125A, 1987

Dietary survey
Nutrient intakes in three English towns **46**, 99A, 1987
The three-town diet study: food intake **46**, 126A, 1987
Which foods contain dietary fibre? The beliefs of 7351 respondents in the Health and Lifestyle Survey 1984–85 **46**, 135A, 1987

Digesta flow
Digesta flow from the ileum and transit time through the caecum of rats given diets containing graded levels of peas **46**, 149A, 1987

Endotoxin
Influence of protein deficiency on the metabolic response to endotoxin in young rats **46**, 93A, 1987
Metallothionein levels in blood cells and urine of zinc-deficient and endotoxin-treated rats **46**, 57A, 1987

Energy balance
Effect of the level and type of fat intake on energy balance and thermogenesis in the rat **46**, 91A, 1987

Energy expenditure
Activity pattern of rural women from Rajasthan, India **46**, 145A, 1987
Energy expenditure: evaluation of a factorial field technique against continuous calorimetry **46**, 81A, 1987
Energy expenditure in vaccination, infection and controlled hyperthermia **46**, 16A, 1987
The effect of aerobic exercise on subsequent 24 h resting metabolic rate in normal male subjects **46**, 4A, 1987

Energy intake
Increased dietary carbohydrate and endurance during single-leg cycling **46**, 143A, 1987
Influence of different levels of dietary energy on the performance of cows suckling two calves **46**, 30A, 1987
Metabolic adaptation to a marginal energy intake **46**, 85A, 1987

Energy metabolism
Energy and nitrogen metabolism in genetically fat and lean chickens **46**, 34A, 1987
Energy balance in dog sledgers and skidoo drivers in Antarctica: a comparison **46**, 147A, 1987
Energy intake, expenditure and balance of the transglobe expedition Antarctic crossing party **45**, 146A, 1987
Energy utilization and physical activity in intubated and self-fed male domestic fowl **46**, 148A, 1987

Energy requirements
Did Scott simply starve? Lessons from 'The footsteps of the Scott Antarctic expedition' **46**, 129A, 1987
Energy requirements of Indian men: overestimation by new international method **46**, 124A, 1987

Energy restriction
Effect of corticosterone and energy restriction on IGF-1 levels, cartilage matrix synthesis and bone growth in the rat **46**, 94A, 1987

Epidermal growth factor
Effects of recombinant-DNA-derived growth factors on cultured sheep muscle cells **46**, 46A, 1987
Vitamin A and synthetic retinoids induce gastrointestinal proliferation and gastric hyperkeratosis; similarities in the action of retinoids and epidermal growth factor **46**, 2A, 1987

***Escherichia coli* endotoxin**
Responses of lean and obese Zucker rats to two types of *Escherichia coli* endotoxin **46**, 140A, 1987
The differing responses of zinc and protein metabolism to *Escherichia coli* endotoxin in rats fed on diets containing maize, coconut and fish oils **46**, 36A, 1987

Ethnic groups
Nutrient and food intakes in Caucasian and Gujarati men in North London **46**, 7A, 1987
Eating patterns of Afro-Caribbean mothers in Birmingham **46**, 100A, 1987
Plasma phospholipid fatty acid composition in men of Asian and European descent **46**, 117A, 1987

Ethylmalonic acid
Effects of rumen butyrate infusion on blood ethylmalonic acid concentration in sheep **46**, 112A, 1987

Exercise
Fat metabolism during prolonged exercise: influence of carnitine supplementation **46**, 138A, 1987
Increased dietary carbohydrate and endurance during single-leg cycling **46**, 143A, 1987
Influence of carbohydrate supplementation on running performance **46**, 119A, 1987
The effect of aerobic exercise on subsequent 24 h resting metabolic rate in normal male subjects **46**, 4A, 1987

Factorial field method
Energy expenditure: evaluation of a factorial field technique against continuous calorimetry **46**, 81A, 1987

Famine
Early warning of famine: a red herring? **46**, 263–266, 1987
European food aid as a tool for relief and development in Sub-Saharan Africa **46**, 281–300, 1987
General discussion **46**, 309–319, 1987
Introductory remarks **46**, 259–261, 1987
Teaching programme staff to identify likely food shortages and to tackle their consequences **46**, 273–279, 1987
The limits to the use of international aid as a means of securing improvements in food production and nutrition **46**, 267–272, 1987
The role of livestock in Africa: are livestock occasionally contributing to famine? **46**, 301–308, 1987

Fat deposition
Energy and nitrogen metabolism in genetically fat and lean chickens **46**, 34A, 1987

Fat distribution
Abdominal adipose tissue distribution in diabetes, Cushing's syndrome and phaeochromocytoma: a computed tomography index for brown adipose tissue activity? **46**, 19A, 1987
Fatness and fat distribution related to glucose tolerance in pregnancy **46**, 151A, 1987

Fat intake
Effect of the level and type of fat intake on energy balance and thermogenesis in the rat **46**, 91A, 1987
The Kilkenny Health Project: patterns of food intake in individuals consuming low-, moderate- and high-fat diets **46**, 14A, 1987

Fat metabolism
Fat metabolism during prolonged exercise: influence of carnitine supplementation **46**, 138A, 1987

Fatty acids
Effect of dietary saturated and polyunsaturated fats on faecal excretion of cholesterol and its catabolites in rabbits **46**, 10A, 1987
Effect of increasing levels of dietary eicosapentaenoic (20:5*n*−3) and docosahexaenoic (22:6*n*−3) acids on lymphocyte phospholipid composition and cell-mediated immunity in the mouse **46**, 87A, 1987
Influence of a mackerel diet on plasma lipoproteins and platelet function **46**, 5A, 1987
Plasma phospholipid fatty acid composition in men of Asian and European descent **46**, 117A, 1987
Reduction in the saturated fatty acid content of cow's milk fat through diet formulation **46**, 114A, 1987
The effect of a dietary supplement of marine oil in healthy volunteers on platelet lipids, platelet function and platelet plasma membrane fluidity **46**, 12A, 1987
The effect of copper deficiency on oxygen free radical defence mechanisms in rats fed on saturated or polyunsaturated fat **46**, 152A, 1987

Feed additives
Antibiotic feed additives and livestock production **46**, 415–421, 1987
The effect of Actaplanin on the composition of cow's milk **46**, 43A, 1987

Feed quality
Biotechnology and improvement of feeds **46**, 379–385, 1987

Fetal growth
Fetal growth in low birth weight Nigerian babies **46**, 15A, 1987

Fetus
Placental transfer of calcium to the ovine fetus and its regulation **46**, 321–329, 1987

Fishmeal
The effect of fishmeal supplementation of grass silage on nitrogen metabolism in growing cattle **46**, 38A, 1987
The metabolism of L-[4,5-^{3}H]leucine labelled fishmeal protein by rumen micro-organisms in vitro **46**, 39A, 1987
The use of [^{3}H] leucine as a marker for microbial protein synthesized in the rumen **46**, 37A, 1987

Fish oil
Influence of a mackerel diet on plasma lipoproteins and platelet function **46**, 5A, 1987
The differing responses of zinc and protein metabolism to *Escherichia coli* endotoxin in rats fed on diets containing maize, coconut and fish oils **46**, 36A, 1987
The effect of a dietary supplement of marine oil in healthy volunteers on platelet lipids, platelet function and platelet plasma membrane fluidity **46**, 12A, 1987
The effect of dietary fish oil on immune-complex-induced atherosclerosis in rabbits **46**, 13A, 1987

Food aid
European food aid as a tool for relief and development in Sub-Saharan Africa **46**, 281–300, 1987
The limits to the use of international aid as a means of securing improvements in food production and nutrition **46**, 267–272, 1987

Food and health policy
Evaluating a district food and health policy: the Bloomsbury experience **46**, 98A, 1987
Food form
A comparison of the thermic responses to two 2MJ meals provided as a liquid formula or a solid food **46**, 83A, 1987
Food intake
Dose-related effects on hay intake of acetate infused into the rumen of lactating cows **46**, 29A, 1987
Eating patterns of Afro-Caribbean mothers in Birmingham **46**, 100A, 1987
Food intake and carcass composition of chickens given glucose in the drinking water **46**, 32A, 1987
Food intake of intact and vagotomized chickens infused with lysine and glucose into the hepatic portal vein **46**, 33A, 1987
The Kilkenny Health Project: patterns of food intake in individuals consuming low-, moderate- and high-fat diets **46**, 14A, 1987
The three-town diet study: food intake **46**, 126A, 1987
Voluntary food intake and reproduction **46**, 193–201, 1987
Free radicals
Free radical mechanisms in relation to tissue injury **46**, 1–12, 1987
Free radical problems of the newborn **46**, 69–75, 1987
Free radicals and metal ions in health and disease **46**, 13–26, 1987
Free radicals in the pathogenesis of kwashiorkor **46**, 53–68, 1987
Muscle damage during exercise: possible role of free radicals and protective effect of vitamin E **46**, 77–80, 1987
Oxygen free radicals in food **46**, 35–41, 1987
The effect of copper deficiency on oxygen free radical defence mechanisms in rats fed on saturated or polyunsaturated fat **46**, 152A, 1987
The role of free radicals in liver damage **46**, 43–52, 1987
Vitamin, selenium, zinc and copper interactions in free radical protection against ill-placed iron **46**, 27–34, 1987
Fructose consumption
Long-term effects of fructose consumption on adipose tissue cellularity and glycaemic status in non-insulin dependent diabetic rats **46**, 20A, 1987

Gastrointestinal tract
Vitamin A and synthetic retinoids induce gastrointestinal proliferation and gastric hyperkeratosis; similarities in the action of retinoids and epidermal growth factor **46**, 2A, 1987
Gastroplasty
Evaluation of gastroplasty in the management of severe obesity **46**, 121A, 1987
Genetics of atherosclerosis
The genetics of atherosclerosis **46**, 337–343, 1987
Glucose
Serum glucose and insulin response to various levels of glucose, maltose and two maltodextrins in men and women **46**, 88A, 1987
Glucose drink
Food intake and carcass composition of chickens given glucose in the drinking water **46**, 32A, 1987
Glucose feeding
The effects of glucose feeding during starvation on rat jejunal secretion **46**, 24A, 1987
Glucose infusion
Food intake of intact and vagotomized chickens infused with lysine and glucose into the hepatic portal vein **46**, 33A, 1987
Glucose tolerance
Fatness and fat distribution related to glucose tolerance in pregnancy **46**, 151A, 1987
Glutathionine peroxidase
Selenium concentration and glutathione peroxidase activity in human blood from patients with coronary heart disease **46**, 55A, 1987
Glycine
Glycine: limiting amino acid for rapid growth **46**, 136A, 1987
Gnotobiotic pigs
The effect of soya-bean protein on intestinal morphology, absorption and enzyme activity in gnotobiotic pigs at 3 weeks of age **46**, 101A, 1987
Growth
Glycine: limiting amino acid for rapid growth **46**, 136A, 1987
The anabolic effects of growth hormone and thyroxine on tissue growth in Snell dwarf mice **46**, 35A, 1987
Growth hormone
Effect of clenbuterol on the growth and carcass composition of hypophysectomized rats in the presence or absence of growth hormone **46**, 108A, 1987
Insulin-like growth factor-1 and growth hormone in sheep **46**, 48A, 1987
The anabolic effects of growth hormone and thyroxine on tissue growth in Snell dwarf mice **46**, 35A, 1987
The relation between hind-limb muscle protein metabolism and growth hormone, insulin, thyroxine and cortisol in growing lambs **46**, 45A, 1987

Haemo-dialysis
The effects of haemo-dialysis on salt and sweet taste **46**, 23A, 1987
Hormones
Biotechnology and production-related hormones **46**, 393–405, 1987
Nutritional and metabolic factors in the regulation of reproductive hormone secretion in the primate **46**, 159–175, 1987

Hypertension
Non-pharmacological treatment of hypertension **46**, 373–377, 1987
Hyperthermia
Energy expenditure in vaccination, infection and controlled hyperthermia **46**, 16A, 1987

IGF–1
Effect of corticosterone and energy restriction on IGF–1 levels, cartilage matrix synthesis and bone growth in the rat **46**, 94A, 1987
Ileum
Starvation enhances the secretory responses of stripped rat colon and ileum to acetyl choline in vitro **46**, 109A, 1987
Immune complex
The effect of dietary fish oil on immune-complex-induced atherosclerosis in rabbits **46**, 13A, 1987
Infant nutrition
Metabolic adaptation to a marginal energy intake **46**, 85A, 1987
Infection
Energy expenditure in vaccination, infection and controlled hyperthermia **46**, 16A, 1987
Insulin
Acute changes in mammary gland blood flow, lipogenesis and circulating insulin levels during refeeding of starved lactating rats **46**, 31A, 1987
Effect of an anabolic steroid (Durabolin) on body composition of rats treated with insulin **46**, 96A, 1987
Insulin binding to skeletal muscle microsomes during lactation in sheep **46**, 47A, 1987
Insulin interaction with the central nervous system: nature and possible significance **46**, 97–103, 1987
Neural control of the endocrine pancreas **46**, 89–95, 1987
Serum glucose and insulin response to various levels of glucose, maltose and two maltodextrins in men and women **46**, 88A, 1987
The relation between hind-limb muscle protein metabolism and growth hormone, insulin, thyroxine and cortisol in growing lambs **46**, 45A, 1987
Insulin-like growth factor-1
Effects of recombinant-DNA-derived growth factors on cultured sheep muscle cells **46**, 46A, 1987
Insulin-like growth factor-1 and growth hormone in sheep **46**, 48A, 1987
Intestinal absorption
Absorption kinetics of amino acids from amino acid mixtures of the same composition perfused into the small intestine in the free form or as enzymic milk protein hydrolysates in conscious pigs **46**, 104A, 1987
Qualitative and quantitative intestinal absorption and hepatic metabolism in conscious pigs. 1. Glucose and amino nitrogen **46**, 102A, 1987
Qualitative and quantitative intestinal absorption and hepatic metabolism in conscious pigs. 2. Lactate, pyruvate, ammonia-nitrogen and urea **46**, 103A, 1987
Intestinal morphology
The effect of soya-bean protein on intestinal morphology, absorption and enzyme activity in gnotobiotic pigs at 3 weeks of age **46**, 101A, 1987
Intestinal mucus
The effects of fasting and fibre supplements on some metal-binding properties of rat intestinal mucus **46**, 52A, 1987
Iron
Vitamin, selenium, zinc and copper interactions in free radical protection against ill-placed iron **46**, 27–34, 1987
Irritable bowel syndrome
Fibre, dietitians and irritable bowel syndrome **46**, 120A, 1987

Jejunal secretion
The effects of glucose feeding during starvation on rat jejunal secretion **46**, 24A, 1987

Kidney
Intracellular events in the liver and kidney of copper-loaded rats in relation to Cu-storage diseases in man and animals **46**, 72A, 1987
Kwashiorkor
Free radicals in the pathogenesis of kwashiorkor **46**, 53–68, 1987

Lactation
Acute changes in mammary gland blood flow, lipogenesis and circulating insulin levels during refeeding of starved lactating rats **46**, 31A, 1987
Dose-related effects on hay intake of acetate infused into the rumen of lactating cows **46**, 29A, 1987
Influence of different levels of dietary energy on the performance of cows suckling two calves **46**, 30A, 1987
Insulin binding to skeletal muscle microsomes during lactation in sheep **46**, 47A, 1987
Nutritional effects on the fetus and mammary gland during pregnancy **46**, 249–257, 1987
Sympathetic activity in brown adipose tissue during lactation in mice **46**, 27A, 1987
Lactational infertility
Nutritional effects on puberty and lactational infertility in mammals: some interspecies considerations **46**, 203–216, 1987
Lactic acid
Feed antibiotics and buffers to control rumen lactic acid: 1. dose rates **46**, 40A, 1987
Feed antibiotics and buffers to control rumen lactic acid: 2. pre-dosing rates **46**, 41A, 1987

Lactoferrin
Absorption of oral bovine lactoferrin in the neonatal and adult pig **46**, 110A, 1987
Large intestine
Digesta flow from the ileum and transit time through the caecum of rats given diets containing graded levels of peas **46**, 149A, 1987
Lasalocid
Evaluation of avoparcin, flavomycin and lasalocid for wool production **46**, 42A, 1987
Lead
The effect of lead and phospholipids on serum cholesterol **46**, 115A, 1987
Lipids
Can nutrition favourably affect serum lipids? **46**, 361–366, 1987
Lipoproteins
Influence of a mackerel diet on plasma lipoproteins and platelet function **46**, 5A, 1987
Liver
Copper retention in the human liver: a histochemical and immunocytochemical study **46**, 71A, 1987
Intracellular events in the liver and kidney of copper-loaded rats in relation to Cu-storage diseases in man and animals **46**, 72A, 1987
Neural control and neurosensory functions of the liver **46**, 125–133, 1987
Liver damage
The role of free radicals in liver damage **46**, 43–52, 1987
Liver function test
Liver function test abnormalities during enteral nutrition **46**, 77A, 1987
Liver metabolism
Qualitative and quantitative intestinal absorption and hepatic metabolism in conscious pigs. 1. Glucose and amino nitrogen **46**, 102A, 1987
Qualitative and quantitative intestinal absorption and hepatic metabolism in conscious pigs. 2. Lactate, pyruvate, ammonia-nitrogen and urea **46**, 103A, 1987
Lymphoctye ascorbate
Acute effect of exercise on ascorbate content of plasma lymphocytes **46**, 89A, 1987

Mackerel
Influence of a mackerel diet on plasma lipoproteins and platelet function **46**, 5A, 1987
Macrobiotic diet
The composition of macrobiotic diets **46**, 17A, 1987
Maize
Mechanisms contributing to the rachitogenic properties of maize **46**, 78A, 1987
Markers
Regulation of muscle protein metabolism in man as measured by the forearm model **46**, 3A, 1987
The use of [^{3}H] leucine as a marker for microbial protein synthesized in the rumen **46**, 37A, 1987
Meal stimulus
A comparison of the thermic responses to two 2MJ meals provided as a liquid formula or a solid food **46**, 83A, 1987
Thermic responses to spontaneous meals in the rat **46**, 90A, 1987
Menstrual cycle
The effect of the menstrual cycle on patterns of nutrient intake **46**, 128A, 1987
Metabolic rate
A comparison of the thermic responses to two 2MJ meals provided as a liquid formula or a solid food **46**, 83A, 1987
Lower daily metabolic rates in post-obese than in lean subjects **46**, 82A, 1987
Overnight metabolic rate in men and women **46**, 118A, 1987
The effect of aerobic exercise on subsequent 24 h resting metabolic rate in normal male subjects **46**, 4A, 1987
Metal ions
Free radicals and metal ions in health and disease **46**, 13–26, 1987
Metallothionein
Effect of maternal zinc supply on metallothionein levels in blood and liver of rat pups **46**, 56A, 1987
Metallothionein levels in blood cells and urine of zinc-deficient and endotoxin-treated rats **46**, 57A, 1987
Microbial protein
The use of [^{3}H] leucine as a marker for microbial protein synthesized in the rumen **46**, 37A, 1987
Microsomal membranes
Insulin binding to skeletal muscle microsomes during lactation in sheep **46**, 47A, 1987
Milk
The effect of Actaplanin on the composition of cow's milk **46**, 43A, 1987
Milk-clotting enzymes
Basal and pentagastin-induced gastric acid and milk-clotting enzyme secretion in pigs from birth to 4 weeks of age **46**, 25A, 1987
Ontogeny of pig gastric proteases; observations on fetal, stillborn, unsuckled newborn, suckled and growing pigs **46**, 26A, 1987
Milk fat
Reduction in the saturated fatty acid content of cow's milk fat through diet formulation **46**, 114A, 1987
Molybdate
The effect of molybdate compounds on the biliary excretion of copper by sheep **46**, 69A, 1987
MONICA project
Belfast MONICA project first population survey: cholesterol, zinc, copper and selenium **46**, 61A, 1987
Mucosal cell proliferation
Effect of high-fibre diets on faecal DNA and mucosal cell proliferation in the rat **46**, 97A, 1987

Muscle damage
Muscle damage during exercise: possible role of free radicals and protective effect of vitamin E **46**, 77–80, 1987

NACNE
Towards NACNE: practical nutrition education in a high-risk area **46**, 144A, 1987

Neutrophils
Microbicidal activity of neutrophils of cobalt-deficient and repleted calves **46**, 67A, 1987

Nicotinamide
The metabolism of a high intake of nicotinamide in choline-deficient rats **46**, 74A, 1987

Nitrogen losses
Nitrogen losses from the human small bowel: obligatory losses and the effect of diet **46**, 73A, 1987

Nitrogen metabolism
Energy and nitrogen metabolism in genetically fat and lean chickens **46**, 34A, 1987
The effect of fishmeal supplementation of grass silage on nitrogen metabolism in growing cattle **46**, 38A, 1987
The effect of sodium bicarbonate on nitrogen metabolism in the rumen of sheep fed on silage-based rations **46**, 49A, 1987

***N*-Nitrosoproline excretion**
The effect of diet on *N*-nitrosoproline excretion in man **46**, 127A, 1987

Noradrenaline
Sympathetic activity in brown adipose tissue during lactation in mice **46**, 27A, 1987

Nutrient intakes
Diet and ischaemic heart disease in the community: the Caerphilly study **46**, 8A, 1987
Nutrient and food intakes in Caucasian and Gujarati men in North London **46**, 7A, 1987
Six year compliance and dietary advice in cardiac patients **46**, 9A, 1987
The effect of the menstrual cycle on patterns of nutrient intake **46**, 128A, 1987
The percentage contribution of foods to the nutrient composition of diets of schoolchildren and adults **46**, 6A, 1987

Nutritional status
The effects of pre-operative nutritional status on post-operative complications in head and neck surgery **46**, 122A, 1987

Nutritional support
Liver function test abnormalities during enteral nutrition **46**, 77A, 1987

Nutrition and reproduction
Nutritional and metabolic factors in the regulation of reproductive hormone secretion in the primate **46**, 159–175, 1987
Nutritional effects on puberty and lactational infertility in mammals: some interspecies considerations **46**, 203–216, 1987
Nutritional effects on the fetus and mammary gland during pregnancy **46**, 249–257, 1987
Nutritional interactions with reproduction in birds **46**, 217–225, 1987
Nutritionally induced congential defects **46**, 227–235, 1987
Nutrition and puberty in the female **46**, 177–192, 1987
Obesity and reproduction **46**, 237–247, 1987
Voluntary food intake and reproduction **46**, 193–201, 1987

Nutrition education
Evaluating a district food and health policy: the Bloomsbury experience **46**, 98A, 1987
Towards NACNE: practical nutrition education in a high-risk area **46**, 144A, 1987

Oat bran
Cholesterolaemic and intestinal responses to oat bran fractions in chicks **46**, 150A, 1987

Obesity
Evaluation of gastroplasty in the management of severe obesity **46**, 121A, 1987
Lower daily metabolic rates in post-obese than in lean subjects **46**, 82A, 1987
Neural activity in hypothalamic and genetic obesity **46**, 105–117, 1987
Obesity and reproduction **46**, 237–247, 1987
Responses of lean and obese Zucker rats to two types of *Escherichia coli* endotoxin **46**, 140A, 1987
Smoking habit, carboxyhaemoglobin level and obesity in patients with peripheral arterial disease **46**, 80A, 1987

Old age
Dietary intake of zinc and copper in long-stay geriatric patients **46**, 63A, 1987
Estimation of leucocyte zinc and serum Zn and copper in geriatric long-stay patients **46**, 62A, 1987

Oligopeptides
Absorption kinetics of amino acids from amino acid mixtures of the same composition perfused into the small intestine in the free form or as enzymic milk protein hydrolysates in conscious pigs **46**, 104A, 1987

Osmolality
Relation between osmolality of the diet and diarrhoea in enteral feeding **46**, 76A, 1987

Pancreas
Neural control of the endocrine pancreas **46**, 89–95, 1987

Pancreatitis
The relation of alcohol intake and diet to the changing pattern of acute pancreatitis **46**, 133A, 1987

Parenteral nutrition
Comparison of Novomine, a locally manufactured amino acid solution, with commercially available solutions, in a District General Hospital **46**, 75A, 1987
Somatomedin C, insulin, and protein synthesis in patients receiving biosynthetic human growth hormone and undergoing surgery or during total parenteral nutrition **46**, 123A, 1987

The efficacy of standard intravenous feeding regimens **46**, 153A, 1987
Very low birth weight infants given total parenteral nutrition: longitudinal balance studies of nitrogen and energy **46**, 84A, 1987

Pentagastin
Basal and pentagastin-induced gastric acid and milk-clotting enzyme secretion in pigs from birth to 4 weeks of age **46**, 25A, 1987

Phospholipids
Effect of increasing levels of dietary eicosapentaenoic (20:5*n*−3) and docosahexaenoic (22:6*n*−3) acids on lymphocyte phospholipid composition and cell-mediated immunity in the mouse **46**, 87A, 1987
Plasma phospholipid fatty acid composition in men of Asian and European descent **46**, 117A, 1987
The effect of lead and phospholipids on serum cholesterol **46**, 115A, 1987

Phosphorus
Mechanisms contributing to the rachitogenic properties of maize **46**, 78A, 1987

Placenta
Placental transfer of calcium to the ovine fetus and its regulation **46**, 321–329, 1987

Plasma ascorbate
Acute effect of exercise on ascorbate content of plasma lymphocytes **46**, 89A, 1987

Platelet function
Nutrition and platelet function in atherogenesis **46**, 345–359, 1987
The effect of a dietary supplement of marine oil in healthy volunteers on platelet lipids, platelet function and platelet plasma membrane fluidity **46**, 12A, 1987

Potassium
Relations between dietary intake and urinary excretion for sodium and potassium **46**, 21A, 1987

Pregnancy
Copper supplementation during pregnancy can reduce perinatal mortality and improve early growth in lambs **46**, 68A, 1987
Fatness and fat distribution related to glucose tolerance in pregnancy **46**, 151A, 1987
Nutritional effects on the fetus and mammary gland during pregnancy **46**, 249–257, 1987
The Keneba prenatal supplementation programme: updated analysis after 4 years of intervention **46**, 125A, 1987

Propionic acid
Tissue incorporation and excretion of ^{14}C in pigs after injection of [1–^{14}C]– or [2–^{14}C] propionic acid into the caecum **46**, 113A, 1987

Protein
Detection of secretory IgA antibodies to common food protein in stimulated human parotid saliva **46**, 86A, 1987

Protein deficiency
Influence of protein deficiency on the metabolic response to endotoxin in young rats **46**, 93A, 1987

Protein metabolism
Effect of undernourishment and subsequent refeeding on hind-limb muscle protein metabolism in growing lambs **46**, 44A, 1987
Effects of recombinant-DNA-derived growth factors on cultured sheep muscle cells **46**, 46A, 1987
Regulation of muscle protein metabolism in man as measured by the forearm model **46**, 3A, 1987
The differing responses of zinc and protein metabolism to *Escherichia coli* endotoxin in rats fed on diets containing maize, coconut and fish oils **46**, 36A, 1987
The relation between hind-limb muscle protein metabolism and growth hormone, insulin, thyroxine and cortisol in growing lambs **46**, 45A, 1987

Protein turnover
The effect of splenectomy on whole body protein turnover in homozygous sickle cell disease **46**, 137A, 1987

Puberty
Nutritional effects on puberty and lactational infertility in mammals: some interspecies considerations **46**, 203–216, 1987
Nutrition and puberty in the female **46**, 177–192, 1987

Rickets
Mechanisms contributing to the rachitogenic properties of maize **46**, 78A, 1987

Rumen
Biotechnology and modifications of the rumen microbial ecosystem **46**, 407–413, 1987

Rumen ammonia
The effect of sodium bicarbonate on nitrogen metabolism in the rumen of sheep fed on silage-based rations **46**, 49A, 1987

Rusitec
The metabolism of L-[4,5-^{3}H]leucine labelled fishmeal protein by rumen micro-organisms in vitro **46**, 39A, 1987

Saliva
Detection of secretory IgA antibodies to common food protein in stimulated human parotid saliva **46**, 86A, 1987

Schoolchildren
The percentage contribution of foods to the nutrient composition of diets of schoolchildren and adults **46**, 6A, 1987

Scott of the Antarctic
Did Scott simply starve? Lessons from 'The footsteps of the Scott Antarctic expedition' **46**, 129A, 1987

Secretory IgA antibodies
Detection of secretory IgA antibodies to common food protein in stimulated human parotid saliva **46**, 86A, 1987

Selenium
Adaptation of a rapid, single test-tube, fluorometric method for the estimation of selenium in foods and food products **46**, 116A, 1987
Selenium concentration and glutathione peroxidase activity in human blood from patients with coronary heart disease **46**, 55A, 1987
Selenium pathways in the soil–plant–animal system **46**, 65A, 1987
Sepsis
The efficacy of standard intravenous feeding regimens **46**, 153A, 1987
Serotonin
Tryptophan availability and serotonin synthesis **46**, 143–156, 1987
Sickle cell disease
The effect of splenectomy on whole body protein turnover in homozygous sickle cell disease **46**, 137A, 1987
Small bowel
Nitrogen losses from the human small bowel: obligatory losses and the effect of diet **46**, 73A, 1987
Small intestine
Cholesterolaemic and intestinal responses to oat bran fractions in chicks **46**, 150A, 1987
Smoking habit
Smoking habit, carboxyhaemoglobin level and obesity in patients with peripheral arterial disease **46**, 80A, 1987
Sodium
Relations between dietary intake and urinary excretion for sodium and potassium **46**, 21A, 1987
Sodium and blood pressure in the hypertensive type II diabetic: randomized blind, controlled and crossover studies of moderate Na restriction and Na supplementation **46**, 22A, 1987
Sodium bicarbonate
The effect of sodium bicarbonate on nitrogen metabolism in the rumen of sheep fed on silage-based rations **46**, 49A, 1987
Soil
Assessing the availability of ingested soil cobalt for the synthesis of vitamin B_{12} in the ovine rumen **46**, 66A, 1987
Cobalt, copper and molybdenum in Scottish soils **46**, 64A, 1987
Selenium pathways in the soil–plant–animal system **46**, 65A, 1987
Soya-bean protein
The effect of soya-bean protein on intestinal morphology, absorption and enzyme activity in gnotobiotic pigs at 3 weeks of age **46**, 101A, 1987
Spleen
The effect of splenectomy on whole body protein turnover in homozygous sickle cell disease **46**, 137A, 1987
Stable isotopes
Regulation of muscle protein metabolism in man as measured by the forearm model **46**, 3A, 1987
Starvation
Acute changes in mammary gland blood flow, lipogenesis and circulating insulin levels during refeeding of starved lactating rats **46**, 31A, 1987
Effect of undernourishment and subsequent refeeding on hind-limb muscle protein metabolism in growing lambs **46**, 44A, 1987
Starvation enhances the secretory responses of stripped rat colon and ileum to acetyl choline in vitro **46**, 109A, 1987
Surgery
Somatomedin C, insulin, and protein synthesis in patients receiving biosynthetic human growth hormone and undergoing surgery or during total parenteral nutrition **46**, 123A, 1987
The effects of pre-operative nutritional status on post-operative complications in head and neck surgery **46**, 122A, 1987
Taste
The effects of haemo-dialysis on salt and sweet taste **46**, 23A, 1987
Thermogenesis
A comparison of the thermic responses to two 2MJ meals provided as a liquid formula or a solid food **46**, 83A, 1987
Effect of the level and type of fat intake on energy balance and thermogenesis in the rat **46**, 91A, 1987
Food intake and carcass composition of chickens given glucose in the drinking water **46**, 32A, 1987
Sympathetic activity in brown adipose tissue during lactation in mice **46**, 27A, 1987
Thermic responses to spontaneous meals in the rat **46**, 90A, 1987
Thermogenic sensitivity to adrenergic agonists of brown adipocytes from 'cafeteria'-fed rats **46**, 92A, 1987
Thermogenic response
Defective thermogenic response to mild-cold exposure in type II diabetes and Cushing's disease **46**, 18A, 1987
Thyroxine
The anabolic effects of growth hormone and thyroxine on tissue growth in Snell dwarf mice **46**, 35A, 1987
Tissue injury
Free radical mechanisms in relation to tissue injury **46**, 1–12, 1987
Toe-nail
Differences in the zinc content of different regions of the toe-nail **46**, 59A, 1987
Trace metals
Belfast MONICA project first population survey: cholesterol, zinc, copper and selenium **46**, 61A, 1987
Cobalt, copper and molybdenum in Scottish soils **46**, 64A, 1987
The effect of dietary fibre on apparent absorption of zinc, copper, iron and manganese in the elderly **46**, 53A, 1987

Tryptophan
Tryptophan availability and serotonin synthesis **46**, 143–156, 1987

Twin calves
Influence of different levels of dietary energy on the performance of cows suckling two calves **46**, 30A, 1987

Undernutrition
Influence of acute food restriction on rabbit skeletal muscle sarcoplasmic reticulum Ca^{2+}/Mg^{2+} ATPase (*EC* 3.6.1.3) **46**, 139A, 1987

Vagotomy
Food intake of intact and vagotomized chickens infused with lysine and glucose into the hepatic portal vein **46**, 33A, 1987

Vitamin A
Vitamin A and synthetic retinoids induce gastrointestinal proliferation and gastric hyperkeratosis; similarities in the action of retinoids and epidermal growth factor **46**, 2A, 1987

Vitamin A deficiency
Evaluation of three commercially available vitamin-A-deficient diets **46**, 106A, 1987

Vitamin B_{12}
Assessing the availability of ingested soil cobalt for the synthesis of vitamin B_{12} in the ovine rumen **46**, 66A, 1987

Vitamin B deficiency
Studies on a bone-marrow-derived bioimmunomodulator in improving immune response in immunosuppressed, water-soluble-vitamin-deficient mice **46**, 107A, 1987

Vitamin C
Acute effect of exercise on ascorbate content of plasma lymphocytes **46**, 89A, 1987

Vitamin C deficiency
Studies on a bone-marrow-derived bioimmunomodulator in improving immune response in immunosuppressed, water-soluble-vitamin-deficient mice **46**, 107A, 1987

Vitamin E
Muscle damage during exercise: possible role of free radicals and protective effect of vitamin E **46**, 77–80, 1987

Vitamins
Vitamin, selenium, zinc and copper interactions in free radical protection against ill-placed iron **46**, 27–34, 1987

White adipose tissue
Control of white and brown adipose tissues by the autonomic nervous system **46**, 135–142, 1987

Wilson's disease
Copper retention in the human liver: a histochemical and immunocytochemical study **46**, 71A, 1987
Effect of endogenous status of zinc on copper absorption and its application to the treatment of Wilson's disease **46**, 70A, 1987
Intracellular events in the liver and kidney of copper-loaded rats in relation to Cu-storage diseases in man and animals **46**, 72A, 1987

Wool production
Evaluation of avoparcin, flavomycin and lasalocid for wool production **46**, 42A, 1987

Zinc
Dietary intake of zinc and copper in long-stay geriatric patients **46**, 63A, 1987
Differences in the zinc content of different regions of the toe-nail **46**, 59A, 1987
Effect of endogenous status of zinc on copper absorption and its application to the treatment of Wilson's disease **46**, 70A, 1987
Effect of maternal zinc supply on metallothionein levels in blood and liver of rat pups **46**, 56A, 1987
Estimation of leucocyte zinc and serum Zn and copper in geriatric long-stay patients **46**, 62A, 1987
Na^+,K^+-ATPase-dependent zinc transfer by everted gut sacs from rats given different amounts and types of dietary fibre **46**, 54A, 1987
The differing responses of zinc and protein metabolism to *Escherichia coli* endotoxin in rats fed on diets containing maize, coconut and fish oils **46**, 36A, 1987
The effect of dietary fibre on apparent absorption of zinc, copper, iron and manganese in the elderly **46**, 53A, 1987

Zinc binding
The effects of fasting and fibre supplements on some metal-binding properties of rat intestinal mucus **46**, 52A, 1987

Zinc deficiency
Metallothionein levels in blood cells and urine of zinc-deficient and endotoxin-treated rats **46**, 57A, 1987
Zinc deficiency, amino acid imbalance and brain catecholamine concentrations in the chick **46**, 58A, 1987
